Fence installation or removal (up to 15 panels or 143 feet) with bolted connector security upgrade	\$149 in Metro Vancouver				
	\$198 in Abbotsford or Mission				
	\$9 per additional panel				

Truck services refers to service calls where only our dump truck (or truck and trailer) is required. Except for Zone 1, rates include our 16 foot flatdeck trailer when needed. Truck services requiring our trailer in Zone 1 are subject to a 1.5 hour minimum charge.

Tasks requiring our hydraulic breaker incur both our excavator and breaker rates concurrently, as both pieces of equipment are operating simultaneously. Therefore, concrete breaking costs \$145/hour (\$85 + \$60, assuming payment within a week of invoicing) with a 2 hour minimum.

We assess a surcharge of 10-20% for purchases made on your behalf, such as building materials and dump fees, according to the table above. We provide proof of purchases from the vendor or dump site for all such costs.

Although most customers do not require them, consultations prior to truck-only services (for example, to assess ground conditions before delivering materials or measure properties before delivering rental fences) are subject to the applicable truck service call rate.

For customers paying by Visa or Mastercard, a 3% surcharge is assessed to offset the cost of processing credit card payments. Fence rentals are exempt from this surcharge.

GST applies to all services. PST applies to rentals and some hauling services. More information is available at AlphaExcavations.com/services-notes.htm
